TO: Golden State Risk Management Authority Member Agencies
FROM: Scott Schimke, ARM
RE: Quarterly Pooled Investment Fund Report as prescribed by California Government Code Section 53646 for the Quarter ending December 31, 2009
COPY: Golden State RMA Board of Directors

Included in this report are the Portfolio Summary and the Portfolio Details reports prepared by our investment advisor at CSAC Excess Insurance Authority as well as Portfolio Cash statements.

The report titled "Portfolio Details" show the issuer, date of maturity, par value, cost or dollar amount invested, market value and yields for each security. The market values were obtained from the IDC's pricing system. We believe that market values have been obtained from reliable sources, but we cannot guarantee these values.

A comprehensive Investment report is presented at each meeting of the Board of Directors. The Board reports include an evaluation of the portfolio's performance, a comparison of the performance compared to selected benchmarks, an update of current market changes and trends, and the current investment strategy.

Based on the Portfolio Summary Report, there were no items out of compliance with the GSRMA Investment Policy. During the past quarter we continued to provide adequate liquidity to meet the cash flow needs of the Pool. We believe that the balances in our LAIF and insured liquid investment accounts together with cash flows generated from the other reported investments are sufficient to meet the Authority's expense requirements for the next six months.

Table of Contents

I. Portfolio Summary

The portfolio summary provides summary totals by class of investment. The Par Value equals the amount paid for each investment. The market values were obtained from the IDC's pricing system, a widely accepted pricing service. The Fiscal Year To Date – Current Year equals the fiscal year to date income for the portfolio.

II. Portfolio Details

The portfolio details report shows the current securities in the portfolio. The Par Value is the value at maturity. The Market Value is the estimated value of the securities if they were to be liquidated as of the date of the report. The market value for each class of investment includes accrued interest or the income earned for each security since the last coupon date. Within the description column for each security is the stated yield rate, yield to maturity and the maturity date.

III. Portfolio Cash

These include summary reports from the State Treasurer, Local Agency Investment Fund (LAIF) and any financial institutions holding FDIC insured funds.
